R.F. MacDonald Co.

your boiler & pump solutions team

~ since 1956

YOUR PREMIER SUPPLIER OF PUMPS,
 PARTS, SERVICE, TRAINING AND
 FABRICATED SYSTEMS

R.F. MacDonald Co. sells, services and repairs the best centrifugal and positive displacement pumps with a wide range of features.

We also offer service and maintenance plans. Our factory trained and certified technicians are available for field services and specialized in-house services to keep your equipment in top operating condition and at peak efficiency.

Check out our full line of products for Northern California.

ITT Goulds Pumps

Goulds Pumps is the dominant brand worldwide with over a million installed process pumps in service. Goulds industrial brands include Goulds Pumps, A-C Pump, PumpSmart and PRO Services.

Key Features & Applications: ANSI, Process, Water, Sewage and Slurry Pumps, Chemical Resistant Base Plates, Pump Smart Controls, ANSI Centrifugal, Mag-Drive, Non Metallic, Slurry and Vertical

Goulds Water Technology - Xylem

Goulds Water Technology manufactures centrifugal and turbine pumps, controllers and variable frequency drives for agricultural, building trades, commercial and light industrial water and wastewater applications.

Key Features & Applications: Biopharmaceutical, Chemical, Mining, Oil and Gas, Power, Pulp and Paper, Centrifugal and Turbine Pumps, Controllers and Variable Frequency Drives

Grundfos

Grundfos is one of the world's largest manufacturers of pumps featuring unique stainless steel construction and the latest in electronics. Grundfos pumps are recognized for reliability and value throughout the world.

PACO

PACO Pumps are one of the world's finest and most complete lines of centrifugal pumps and pumping systems.

Key Features & Applications: Commercial, Industrial, HVAC, Stainless Steel Components, Sump and Well, In-Line, Circulators, Dosing, End Suction, Effluent and Sump, Special Service and Horizontal Split Case

Fybroc

A CECO Environmental Brand

CECO Fybroc

Fybroc is the world leader in the design and manufacturing of non-metallic, fiberglass reinforced pumps. Available in several pump designs, they provide excellent corrosion resistance for harsh chemical and environmental applications.

Key Features & Applications: ANSI, Self-Priming, Mag-Drive, Cantilever, Sump and Vertical Turbine Pumps for Acids, Brines, Caustics, Bleaches, Solvents, Seawater and Waste Liquids

seepex®

Seepex

Seepex progressive cavity pumps, macerators and control systems are incorporated into a state-of-the-art quality management system.

Key Features & Applications: Solids Handling, Low Shear, Non Pulsing Pumps for Food and Beverage, Pulp and Paper, Biofuels, Oil, Gas and Chemical

BÖRGER.

Boerger

The simple and ingenious principle of a self-priming, valveless positive displacement pump has found its market in all industries.

Key Features & Applications: Self Priming, Solids Handling, Low Shear Pumps and Macerators for Food and Wine Processing, Chemical, Oil and Gas, Waste Treatment and Marine Applications

HEVY

Toyo HEVY

Toyo is a unit of HEVY pumps. They are a world leader in slurry pumping solutions which handle everything from dirty water to the heaviest slurries.

Key Features & Applications: Filling Coffers Dams, Moving Seriously Sedimented Slurry from a Tailings Pond, Eliminating Clogging at Paper Recycling Plants, Dewatering Mines, Cleaning Municipal and Industrial Sumps

Alfa Laval Heat Exchangers and Centrifugal Pumps

Key Features & Applications: Plate Heat Exchangers with Compact Designs, High Thermal Efficiency, Fully Optimized Sizes and Applications, Centrifugal Pumps that Meet Food, Dairy, Beverage and Personal Care Industries Hygienic Requirements, Increased Process Productivity, High Efficiency and Gentle Product Handling

BJM Pumps

Key Features & Applications: High-Temperature Submersible Pumps, Slurry Pumps, Stainless Steel, Corrosion Resistant, Vortex, Solids Handling and Hot Water Pumps

Warren Rupp Sandpiper

Key Features & Applications: Metallic, Non-Metallic, Ball and Flap, Heavy and Standard Duty, High Pressure, Solids Handling, High Lift, Process and Sanitary Applications and ATEX Certified

Vertiflo Pump Company

Key Features & Applications: Horizontal and Self-Priming Centrifugal Pumps, Vertical Sump, Cantilever, End Suction Pumps, In-Cast Iron, Stainless Steel and Special Alloys

Blackmer

Key Features & Applications: Rotary Vane Pump LPG, Chemical Processing, Refined Fuels, Petroleum, Food and Sanitary and the Mobile Transport Industries

Pulsafeeder

Key Features & Applications: Mag-Drive Gear Pumps and Packages, Hydraulically Actuated Diaphragm, Mechanically Actuated Diaphragm and Solenoid Diaphragm Controllers

Wrightflow Technologies

Key Features & Applications: Positive Displacement Pumps, Circumferential Piston, Chemical, Sanitary and Industrial Markets

Cat Pumps

Key Features & Applications: High Pressure Reciprocating, Positive Displacement, Triplex Pumps, Capacities to 320GPM, Pressures to 7,000PSI and Packaged Systems

Dekker Vacuum Technologies

Key Features & Applications: Rotary and Liquid Ring Vacuum Pumps and Systems and Liquid Ring Compressors

SERO Pump Systems

Key Features & Applications: Industrial, Municipal, Oil and Gas, Chemical and Channel Pumps

Price Pump

Key Features & Applications: Stainless Steel, Cast Iron, Bronze Fitted Centrifugal Pumps, Booster Stations, Multi-Stage, Horizontal and Vertical

WILO

Key Features & Applications: High Efficiency, In-Line, End Suction, Split-Case and Multi-Stage Pumps, Hot Water Heating Systems, HVAC, Water/Glycol, Solar and Geothermal

Bowie Industries

Key Features & Applications: Rubber Lined Rotary Gear Pumps, Abrasive Handling and Corrosion Resistant

National Oilwell Varco

Key Features & Applications: Simplex, Duplex, Triplex and Quintuplex, 2HP to 2,250HP, Complete Pump Packages, Flows to 1,000GPM and Pressures to 15,000PSI

Shippensburg Pump Company

Key Features & Applications: Centrifugal, Turbine, Single and Multi-Stage, Bronze Fitted, Ideal for Boiler Feed and Condensate Units

Wanner Engineering

Key Features & Applications: Sealless Positive Displacement, Sealless High-Pressure Diaphragm and Non Metal Centrifugal Pumps to Handle Abrasive, Aggressive, Corrosive and High Viscous Fluids

ADDITIONAL MANUFACTURERS

Hidrostal, RamParts, Northern Pump and Price Pump

ACCESSORIES

Gear Reducers, Machine Monitoring, Motors, Pulsation Dampeners, Variable Speed Drives and Valves

John Crane

Key Features & Applications: Wide Variety of Seals Including Bellows, Cartridge, Non-Contacting, Pusher and Split Seals

ITT PumpSmart

Key Features & Applications: PumpSmart Controls, Process Control, DCS, Pump Protection, Flow Economy, Real-Time Diagnostics and Load Monitoring

Fulflo

Key Features & Applications: Hydraulic Bypass Relief Valves 3/8" to 4", 1-2,000PSI, Threaded and Flanged
