*~ since 1956*

# YOUR PREMIER SUPPLIER OF RENTAL & REMANUFACTURED BOILERS

For half a century, R.F. MacDonald Co. has been in the business of supplying and servicing boilers and pumps to industrial and commercial customers in California and Nevada. We now bring this experience to the rental and remanufactured boiler systems market. We have available the highest quality equipment to meet your immediate needs for steam or hot water. Our experienced technical sales staff will assist to evaluate your hot water and steam boiler needs and provide the right equipment, right away.

Our fleet of rental/remanufactured equipment includes steam and hot water boilers, deaerators, feed systems and the ancillary equipment to keep you running or get you back on-line as quickly as possible. All equipment is thoroughly checked, tested and equipped to meet California and Nevada boiler and pressure vessel safety requirements. In addition, our fleet has the latest Ultra Lo-NOx burners available to meet even the most stringent air quality emission standards.

We maintain offices in seven strategic locations: Brea (Los Angeles), Fresno, Hayward (San Francisco), Las Vegas, Modesto, Reno and San Diego. Our local factory trained technicians and certified boilermakers are ready to assist you to receive, set, install and start-up your boiler. No need for you to arrange for a crane and crew to set equipment, material and labor to install the equipment, service company to start-up the equipment. With R.F. MacDonald Co. one call is all it takes.

We are available, 24 hours a day, 7 days a week.

With 90 service trucks on the road, we provide full field service capabilities in all locations and repair all makes and models of boilers. Our field services include troubleshooting, repair, certified welding, operator training, and installation.

Our huge boiler and boiler parts inventory combined with our multiple locations ensures fast and reliable service anytime day or night.

We also provide in-house fabrication services for assembling boiler packages and custom systems into pre-piped and wired skids, simplifying field installation requirements.

We would be honored to serve your needs.

## Expertise

*Our representatives are always available to assist you from answering your questions up to and including total project management.*

## Safety

*Our equipment is equipped and our field service crews are trained to assure a safe work place.*

## Flexibility

*Our local office field services provide complete repairs and installations.*

## Reliability

*We know you depend on our equipment. Our checked and tested equipment and local office support will maximize your up-time.*

## Partnership

*We will provide the best equipment and work together with your team for a successful outcome, every time.*

### R.F. MACDONALD CO. DELIVERS ON CRUCIAL STEAM TO PEPPERMILL CASINO

R. F. MacDonald Co. solved the emergency steam needs for this busy casino and met the challenge of placing a steam plant within the confines of a busy casino property during the construction installation of a new boiler plant. The Peppermill was so pleased with the temporary boiler that the new boilers they purchased were the same type and design as the temporary boiler.

### R.F. MACDONALD CO. DELIVERS ON PROCESS STEAM TO A CEREAL PLANT DURING A LOW EMISSION UPGRADE PROJECT.

R.F. MacDonald Co. solved the temporary steam needs for this around the clock cereal plant. The project to replace an aging boiler with a new high efficiency and ultra-low emission boiler also required an ultra-low emission temporary steam boiler to keep the cereal plant in full production. R.F. MacDonald Co. was selected because of our ability to not only design and construct the new boiler plant but additionally to design, supply, install and start-up the temporary steam boiler. The project successfully provided a new efficient boiler that meets the strictest emission standards in the country.

### R.F. MACDONALD CO. PROVIDES CRITICAL STEAM TO A LARGE HOSPITAL DURING THE REPAIR OF THE HOSPITALS BOILER.

R. F. MacDonald Co. solved the emergency steam needs for this critical care hospital. The project to re-tube a watertube steam boiler required reliable temporary steam to meet the critical care needs of the hospital. R.F. MacDonald Co. responded with a skilled crew to perform the re-tube and a reliable temporary boiler to provide critical steam as required by the facility and state hospital critical service regulations.
