JUNE 6/7
HAYWARD, CA

JULY 18/19
SAN DIEGO, CA

SEPTEMBER 19/20
FRESNO, CA

CLEAVER-BROOKS SYSTEMS PLUS / \$650

Level 1: Operations, Safety, Reliability and Efficiency

This two-day course is designed for Boiler Operators, Maintenance Personnel and front line Supervisory Personnel. The class reviews what a boiler is, how it operates and what ancillary equipment is required to support its operation. Additionally, the program stresses safety and the proper operating practices required to maximize efficient, safe and reliable service of the equipment.

BOILER OPERATOR'S WORKSHOP / \$975

This two-day workshop is designed for maintenance, plant, stationary or mechanical engineers as well as maintenance personnel who are responsible for new installation or repair of boilers. However, anyone seeking a basic working knowledge of boiler room equipment, with select hands-on instruction, will benefit from this class. CWEA & AFE Certified.

Custom, On-Site Training Available

BASIC PUMP & MECHANICAL SEAL / \$750

This two-day class focuses on centrifugal and positive displacement pumps and seal fundamentals, installation, operation and new developments. The course covers basic pump types and hydraulics, seal design and installation, as well as great tips on the do's and don't's of pump installation and operation. Many field examples with photos are used along with actual pumps and seals to enhance the learning process. The class is lecture format. CWEA & AFE Certified.

HANDS-ON PUMP WORKSHOP / \$1,300

This true hands-on two-day course is designed for maintenance and operator personnel who are responsible for repair and troubleshooting of centrifugal pumps and mechanical seals, as well as engineers that want to have hands-on experience for installation and repair. The course is conducted in a shop classroom environment with two students assigned to each pump station for maximum hands-on learning. Therefore, class size is limited. CWEA & AFE Certified.

VIKING PUMP FACTORY-REP TRAINING / \$50

This highly interactive class is ideal for maintenance and operations personnel who operate Viking Pumps and anyone who would like to learn more about positive displacement pumps. Training will be conducted by an experienced, factory-trained Viking Pump instructor.
