hydraulic, steam & pumping solutions

~ sales/service since 1956

AN EMPLOYEE OWNED COMPANY

YOUR PREMIER SUPPLIER OF PUMPS,
PARTS, SERVICE, TRAINING AND
FABRICATED SYSTEMS

R.F. MacDonald Co. sells, services and repairs the best centrifugal and positive displacement pumps with a wide range of features.

We also offer service and maintenance plans. Our factory trained and certified technicians are available for field services and specialized in-house services to keep your equipment in top operating condition and at peak efficiency.

Check out our full line of pump products for California and Nevada.

Grundfos

Grundfos is one of the world's largest manufacturers of pumps featuring unique stainless steel construction and the latest in electronics. Grundfos pumps are recognized for reliability and value throughout the world.

PACO

PACO Pumps are one of the world's finest and most complete lines of centrifugal pumps and pumping systems.

Key Features & Applications: Commercial, Industrial, HVAC, Stainless Steel Components, Sump and Well, In-Line, Circulators, Dosing, End Suction, Effluent and Sump, Special Service and Horizontal Split Case

Goulds Water Technology - Xylem

Goulds Water Technology manufactures centrifugal and turbine pumps, controllers and variable frequency drives for agricultural, building trades, commercial and light industrial water and wastewater applications.

Key Features & Applications: Biopharmaceutical, Chemical, Mining, Oil and Gas, Power, Pulp and Paper, Centrifugal and Turbine Pumps, Controllers and Variable Frequency Drives

Curflo

Curflo provides ANSI, self priming and general industrial pump solutions for many of the world's largest chemical, oil & gas, pharmaceutical, power generation, data centers, water parks, zoos, aquariums, and fountain companies.

Key Features & Applications: ANSI, Self Priming Trash, ASME, Process Fluid, Abrasive and Corrosive Handling, Centrifugal and Water Pumping

KSB

KSB Pumps are engineered for robust reliability, energy efficiency and long service life.

Key Features & Applications: Demanding fluid-handling applications from building services and wastewater management to industrial, energy and mining systems.

Mody

Mody Pumps specializes in built-to-last submersible pumps for dewatering, wastewater and slurry applications.

Designed for everything from chemical transfer to viscous fluid pumping, Mody's products combine rugged construction with application-specific expertise for long-term operational success.

Roto

Roto Pumps Ltd. pioneers progressive cavity and positive displacement pumps, combining decades of R&D and in-house manufacturing to deliver robust, high-performance solutions across industries from wastewater to oil & gas. With a presence on five continents, the brand is known for engineering excellence and global service.

BJM Pumps

BJM Pumps also known as Industrial Flow Solutions offers submersible pumps and controls ideal for a wide range of industrial sump applications.

Key Features & Applications: High-Temperature Submersible Pumps, Slurry Pumps, Stainless Steel, Corrosion Resistant, Vortex, Solids Handling and Water Pumps

Boerger

The simple and ingenious principle of a self-priming, valveless positive displacement pump has found its place.

Key Features & Applications: Self-Priming, Solids Handling, Low Shear Pumps and Macerators for Food and Wine Processing.

Vertiflo Pump Company

Vertiflo specializes in vertical process, sump, end suction, and self-priming pumps, available in cast iron, stainless steel, and specialty alloys for a wide range of industrial applications.

Sandpiper

Key Features & Applications: air-operated double-diaphragm pumps are built for rugged, reliable fluid handling, with self-priming operation. For industrial, wastewater, mining, oil & gas, and sanitary processing applications.

Inoxpa

INOXPA manufactures different types of positive displacement pumps, progressive cavity pumps and rotary lobe pumps, to meet the specific needs of each industrial application.

Key Features & Applications: Hygienic, Centrifugal, Self-Priming, Helicoidal, Sanitary, Positive Displacement, Rotary Lobe, Close-Coupled, Food Processing, Cosmetic and Pharmaceutical

Samoa

Key Features & Applications: Robust, industrial-grade positive displacement pumps designed for high-pressure and high-viscosity applications across energy, petrochemical, and processing industries.

Toyo HEVY

Key Features & Applications: Moving Seriously Sedimented Slurry from a Tailings Pond, Eliminating Clogging at Paper Recycling Plants, Dewatering Mines and Industrial Sumps

Pioneer Pump

Pioneer's self-priming centrifugal pumps deliver reliable solids and clear liquid handling with automatic re-priming, ideal for wastewater, lift stations, and industrial applications.

Taco Comfort Solutions

Key Features & Applications: Pumps, Heat Exchangers, Air Separators and Expansion Tanks

Dekker Vacuum Technologies

Key Features & Applications: Rotary and Liquid Ring Vacuum Pumps and Systems and Liquid Ring Compressors

Northern Pumps

Key Features & Applications: Positive Displacement Rotary Gear Pumps, Crude Oil Sumps, High-Pressure Capacities, Pipeline, Sanitary, Food and Beverage

Cat Pumps

Key Features & Applications: High Pressure Reciprocating, Positive Displacement and Plunger Pumps

Wanner Engineering - Hydra-Cell/Vector

Key Features & Applications: Sealless Positive Displacement, High-Pressure Diaphragm and Parastaltic Hose Pumps to Handle Abrasive, Aggressive, Corrosive and High-Viscous Fluids

SERO Pump Systems

Key Features & Applications: Industrial, Municipal, Oil and Gas, Chemical and Channel Pumps

Shippensburg Pump Company

Key Features & Applications: Centrifugal, Turbine, Single and Multi-Stage, Ideal for Boiler Feed and Condensate Units

Bowie Industries

Key Features & Applications: Rubber Lined Rotary Gear Pumps, Abrasive Handling and Corrosion Resistant

Price Pump

Key Features & Applications: Stainless Steel, Cast Iron, Bronze Fitted Centrifugal Pumps, Booster Stations, Multi-Stage, Horizontal and Vertical

MOTORS

Baldor, WEG & WorldWide Electric

Key Features & Applications: High-Efficiency Industrial Grade Performance Motors for Reliable Power Applications.

MECHANICAL SEALS

Fluid Sealing International

Key Features & Applications: Variety of Seals Including Custom Seals, Split Seals and Machining Services.

VARIABLE FREQUENCY DRIVES (VFD'S)

Grundfos, Xylem, and Danfoss

Key Features & Applications: Speed Control for Industrial Pumps Improving Energy and Process Control.
