R.F. MacDonald Co.

hydronic, steam & pumping solutions

~ sales/service since 1956

R.F. MacDonald Co. sells, services and repairs the best centrifugal and positive displacement pumps with a wide range of features.

We also offer service and maintenance plans. Our factory trained and certified technicians are available for field services and specialized in-house services to keep your equipment in top operating condition and at peak efficiency.

Check out our full line of pump products for California and Nevada.

GRUNDFOS

Grundfos

Grundfos is one of the world's largest manufacturers of pumps featuring unique stainless steel construction and the latest in electronics. Grundfos pumps are recognized for reliability and value throughout the world.

PACO

PACO Pumps are one of the world's finest and most complete lines of centrifugal pumps and pumping systems.

Key Features & Applications: Commercial, Industrial, HVAC, Stainless Steel Components, Sump and Well, In-Line, Circulators, Dosing, End Suction, Effluent and Sump, Special Service and Horizontal Split Case

GOULDS WATER TECHNOLOGY a xylem brand

Goulds Water Technology - Xylem

Goulds Water Technology manufactures centrifugal and turbine pumps, controllers and variable frequency drives for agricultural, building trades, commercial and light industrial water and wastewater applications.

Key Features & Applications: Biopharmaceutical, Chemical, Mining, Oil and Gas, Power, Pulp and Paper, Centrifugal and Turbine Pumps, Controllers and Variable Frequency Drives

GRISWOLD

Griswold

Griswold provides ANSI and general industrial pump solutions for many of the world's largest chemical, oil & gas, power generation, water parks, zoos, aquariums, and fountain companies.

Key Features & Applications: ANSI, ASME, Process Fluid, Abrasive and Corrosive Handling, Centrifugal and Water Pumping

BÖRGER

Boerger

The simple and ingenious principle of a self-priming, valveless positive displacement pump has found its market in all industries.

Key Features & Applications: Self-Priming, Solids Handling, Low Shear Pumps and Macerators for Food and Wine Processing, Chemical, Oil and Gas, Waste Treatment and Marine Applications

BJM Pumps

BJM Pumps

BJM Pumps also known as Industrial Flow Solutions offers submersible pumps and controls ideal for a wide range of industrial sump applications.

Key Features & Applications: High-Temperature Submersible Pumps, Slurry Pumps, Stainless Steel, Corrosion Resistant, Vortex, Solids Handling and Water Pumps

INOXPA

Inoxpa

INOXPA manufactures different types of positive displacement pumps, progressive cavity pumps and rotary lobe pumps, to meet the specific needs of each industrial application.

Key Features & Applications: Hygienic, Centrifugal, Self-Priming, Helicoidal, Sanitary, Positive Displacement, Rotary Lobe, Close-Coupled, Food Processing, Cosmetic and Pharmaceutical

VERTIFLO PUMP COMPANY The Industrial Pump Specialists

Vertiflo Pump Company

Vertiflo has concentrated on manufacturing vertical process pumps, sump pumps, end suction pumps and self-priming pumps in cast iron, stainless steel and special alloys.

Key Features & Applications: Horizontal and Self-Priming Centrifugal Pumps, Vertical Sump, Cantilever, End Suction Pumps, In-Cast Iron, Stainless Steel and Special Alloys

Warren Rupp Sandpiper

SANDPIPER, the original Warren Rupp pump brand, offers rugged and reliable air-operated double-diaphragm (AODD) pumps in various sizes, types and models.

Key Features & Applications: Metallic, Non-Metallic, Ball and Flap, Heavy and Standard Duty, High Pressure, Solids Handling, High Lift, Process and Sanitary Applications and ATEX Certified

Hidrostat Pumps

Key Features & Applications: Industrial, Municipal Wastewater, Submersible, Dry Pit, Axial Flow, Fish Friendly, Sludge and Raw Sewage Transporting

Toyo HEVY

Key Features & Applications: Moving Seriously Sedimented Slurry from a Tailings Pond, Eliminating Clogging at Paper Recycling Plants, Dewatering Mines and Industrial Sumps

Pioneer Pump

Pioneer self-priming pumps are designed for reliable solid and clear liquid handling. After initial priming, they continue to re-prime for low maintenance and cost-effective performance.

Key Features & Applications: Self-Priming, Centrifugal, Solids Handling, Clear Liquids, Vacuum-Assisted Priming, Wastewater, Waste Handling, Lift Stations, Chemical Processing and Industrial Applications

Dekker Vacuum Technologies

Key Features & Applications: Rotary and Liquid Ring Vacuum Pumps and Systems and Liquid Ring Compressors

Cat Pumps

Key Features & Applications: High Pressure Reciprocating, Positive Displacement and Plunger Pumps

Northern Pumps

Key Features & Applications: Positive Displacement Rotary Gear Pumps, Crude Oil Sumps, High-Pressure Capacities, Pipeline, Sanitary, Food and Beverage

Ampco Pumps Company

Key Features & Applications: Sanitary Screw Pumps, Centrifugal, Rotary Lobe and Positive Displacement

Wanner Engineering - Hydra-Cell/Vector

Key Features & Applications: Sealless Positive Displacement, High-Pressure Diaphragm and Peristaltic Hose Pumps to Handle Abrasive, Aggressive, Corrosive and High-Viscous Fluids

SERO Pump Systems

Key Features & Applications: Industrial, Municipal, Oil and Gas, Chemical and Channel Pumps

Shippensburg Pump Company

Key Features & Applications: Centrifugal, Turbine, Single and Multi-Stage, Ideal for Boiler Feed and Condensate Units

Bowie Industries

Key Features & Applications: Rubber Lined Rotary Gear Pumps, Abrasive Handling and Corrosion Resistant

Price Pump

Key Features & Applications: Stainless Steel, Cast Iron, Bronze Fitted Centrifugal Pumps, Booster Stations, Multi-Stage, Horizontal and Vertical

ACCESSORIES

Taco Comfort Solutions

Key Features & Applications: Pumps, Heat Exchangers, Air Separators and Expansion Tanks

Flex-A-Seal

Key Features & Applications: Industrial, Municipal, Oil and Gas, Chemical, Custom, Welded Metal Bellows, Split Cartridge Mechanical Seal

John Crane

Key Features & Applications: Variety of Seals Including Bellows, Cartridge, Non-Contacting, Pusher and Split Seals

Danfoss

Key Features & Applications: AC Drives for Building Management Systems, Energy Efficiency for Water & Fan Applications

Uniguard

Key Features & Applications: ANSI/OSHA-Compliant, Vertical and Horizontal Belt Machine Guards, Adjustable, Metallic and Nonmetallic

Fulflo

Key Features & Applications: Hydraulic Bypass Relief Valves 3/8" to 4", 1-2,000PSI, Threaded and Flanged
