STEAM BOILER OPERATORS WORKSHOP / \$1,150

This two-day workshop is designed for maintenance, plant, stationary and mechanical engineers as well as maintenance personnel who are responsible for repairing and troubleshooting boilers. Anyone seeking a basic working knowledge of boiler room equipment will benefit from this class. AFE Certified.

HYDRONIC BOILER OPERATORS WORKSHOP / \$1,150

This two-day lecture course is designed for boiler operators, facilities maintenance and frontline supervisory personnel. This class reviews boiler fundamentals and the ancillary equipment required to support its operation. There will be an emphasis on the safe and efficient operation of low pressure hot water boilers and related equipment. AFE Certified.

SACRAMENTO, CA

CENTRIFUGAL PUMP TRAINING / \$500

This one-day class is designed for maintenance and operator personnel responsible for operating, repairing and troubleshooting centrifugal pumps and mechanical seals. Topics include basic pump types, hydraulics, operation tips, proper installation/startup, operating procedures and routine maintenance. Field examples with photos/videos are used with actual pumps and seals to enhance comprehension.
