For over half a century, R.F. MacDonald Co. has been in the business of supplying and servicing boilers and pumps to commercial and industrial customers in California and Nevada. We represent the highest quality equipment manufacturers in the industry to ensure we apply the right product for your application.

Our factory trained and certified technicians are available to provide equipment startup, field services, and specialized training to keep your facility and equipment in top operating condition and at peak efficiency.

Our in-house engineering team and dedicated fabrication group provide custom fabricated skids and boiler systems pre-packaged with controls, accessories and documentation. We offer hydronic heating packages, domestic hot water packages, commercial steam packages, trailer-mounted mobile steam plants and modular central plants customized to meet your specific project requirements.

We invite you to review all of our commercial products and services and encourage you to contact an office near you to speak directly with a local representative who can personally assist you with your equipment needs.

Select products may only be available in specific regions. Please refer to the listings or contact your R.F. MacDonald Co. sales representative for the ideal solution.
